

Steve Dixon

Steven Dixon has dedicated his entire life to exploring different forms of artistic expression. Dixon's classical training laid the foundation for his extensive career spanning decades where he skillfully blended art with creative strategy, offering his expertise to various advertising, marketing, and publishing ventures.

One of the defining features of Dixon's artwork is his ability to capture the distinct character of his subjects. Through his paintings, he showcases an eye for communicating the feeling of each painting. His styles vary from series to series, which demonstrates a flexible comfort and familiarity grown from a lifetime of creating. Dixon is heavily influenced by his surroundings and has embraced the beauty he sees in Stephens County Oklahoma. His current work reflects this in both style and subject.

Steven has recently dedicated his talents in art to support various local charities. Most notably, Dixon will be donating all of the proceeds from his artwork in 2024 to support **The Second Chance Ranch Inc.**

The **Second Chance Ranch Inc.** has taken a bold step in helping at-risk youth in southwest Oklahoma. We have created two key initiatives:

The **Second Chance Ranch Inc.** was created to provide affordable, structured living and interim support and services for teens coming out of detox and other treatment facilities. This is such a critical and often overlooked time in the journey to recovery. Our program is designed around personal growth, authenticity, community, and accountability.

The Ranch recently began an in-school mentoring program aimed at middle and high school students. This program provides a secure haven for kids in need of extra guidance and support to navigate the challenges of modern society. Our team of mentors works to establish a personal connection with students, emphasizing life skills, emotional intelligence, and character development. Our mission is to empower these young minds with the necessary tools to succeed.

Our one-on-one mentorship program is akin to having a compassionate coach by your side. It offers a safe environment to learn, grow, and develop critical life skills under the guidance of someone who is always in your corner. Our program nurtures a strong support system, providing teenagers with a unique opportunity to share knowledge, experiences, and guidance while feeling safe and bolstered.

"We're currently fundraising to open the doors on our flagship location and expand our mentoring program. Every bit of support is needed to help rehabilitate our at-risk youth so they may re-engage with their family and community. The Second Chance Ranch Inc. is dedicated to giving at-risk teens a second chance."

Be well,
Steven Dixon
